LB368

File and that is why it should have been bracketed yesterday. I responded in support of Senator Mills because I think that any Senator who comes into this body, State Aid is a highly complex question that a lot of people who have served here for a long time don't even understand, and a lot of the new Senators it will take them sometime to fully understand the implications of State aid, and they should have the opportunity to fully debate it as they wish. For the rest of it we can't vote on the bill until we know the implications of the consequences of voting on the bill and we can't do that until we vote on the other funding measures. That is the reason it should stay on Select File so that we can talk about it again once we make those decisions. So, I would oppose the and it should be bracketed indefinitely in order that it stays there until the other measures are acted upon.

CLERK: Mr. President, I have somethings that need to be read in for the Journal. Read communications. Read DeCamp Unanimous Consent. Notice of Committee hearing. Recess motion.

PRESIDENT: Question is shall we recess until 2:00. All those in favor say aye, contrary say nay. We are recessed until 2:00

PRESIDENT: Legislature will be in order. Record your presence. Record.

CLERK: Quorum present, Mr. President.

Read communication from the Governor, (appears on page 1399 of the Legislative Journal).

Read Syas Motion regarding General Fund Money Bills (see page 1400 of Legislative Journal).

PRESIDENT: Some of the Pages and some of the staff have advised me that today is Senator George's birthday. Ordinarily that wouldn't excite too many people, but there is some cake that goes with it. The cake is under the north balcony. Happy Birthday Senator Walter George.

CLERK: Mr. President, a motion on the desk.

PRESIDENT: Read the motion Mr. Clerk.

CLERK: I move for the introduction of the attached bill, signed, Senator Marvel. Read the bill.

PRESIDENT: Senator Marvel.

SENATOR MARVEL: In case you want some additional discussion, Senator Syas will be happy to add to the information. UP to this year the labor department has been active in this area, this just simply designates the Games and Parks Commission which just gave us the bill a few days ago. It designates them as the receipt for federal funds which in turn will be used
